PROFILE

Passionate and detail-oriented Front End Developer with years of hands-on experience crafting immersive and responsive web experiences. Proficient in translating design concepts into seamless, pixel-perfect user interfaces using a combination of HTML, CSS, and JavaScript. Adept at leveraging front-end frameworks like React, and Angular to create dynamic and interactive applications. My expertise extends to optimizing website performance, ensuring cross-browser compatibility, and implementing accessibility standards for an inclusive user experience. Collaborative by nature, I excel in cross-functional teams, working closely with designers and back-end developers to deliver visually stunning and functionally robust web solutions.
